The availability of the Crime and Safety Plan is noted in the Student Catalog too. Potential faculty and staff are provided the information during the hiring process.

Information Regarding Crime Prevention

This Annual Security Report/Crime and Safety Plan has been instituted as a method of informing prospective and current students, faculty, and staff about the prevention of crime.

“Emergency Response/Warning”

Under the Clery Act, 20 U.S.C. §1092(f), each campus is required to immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on the campus. An “immediate” threat includes both an imminent or impending threat, such as an approaching fire in the neighborhood, as well as a fire currently burning in a building. The message that the school is required to give for a significant emergency or dangerous situation involving an immediate threat to health or safety is called an “emergency response” or “emergency warning” under the Clery Act. Our emergency response procedures are regularly updated and distributed and describe in detail how to provide an emergency response or warning to all members of the campus community.

Emergency Response and Evacuation Procedures

The school will immediately notify the campus community upon confirmation of an emergency or dangerous situation.

As soon as the school has confirmed that a significant emergency or dangerous situation exists, we will:

- Take into account the safety of the campus community,
- Determine what information to release about the situation, and
- Begin the notification process.

The only reason we would not immediately issue a notification for a confirmed emergency or dangerous situation is if doing so will compromise efforts to:

- Assist a victim,
- Contain the emergency,
- Respond to the emergency, or
- Otherwise mitigate the emergency. An example of not compromising efforts to mitigate the emergency might be agreeing to a request of local law enforcement or fire department officials.

Emergency Procedures

1. Call 911. Give the School address:

2. Individuals should evacuate the area immediately. Follow the emergency safety routes as shown on the Evacuation Routes for each building, and assemble in front of the building at least 100 feet away from the building. Campus Security Authorities will notify everyone when it is safe to return to the building. The school is small enough that communication from the front of the school to the back of the school can occur rather rapidly. There is a STARS Campus Management Portal database that will allow us to send immediate notifications via text message to students in the event of an emergency. Faculty & Staff are contacted by their respective supervisors and/or Campus Security Authorities. If there appears to be an immediate threat, the building will be evacuated. If there is a threat as a result of a criminal action that could potentially jeopardize the safety and well-being of the students, faculty, and staff, they are informed of the occurrence through one of the designated Campus Security Authorities. All faculty and staff participate in any meetings to address safety issues and the steps to take in the identification of a threat to safety and implementation of steps to minimize

or eliminate any risk of danger that are held while on campus. Faculty and staff will be required to have their classes participate in any reviews of the procedures or drills while they are on campus as well.

The Emergency Response Team will check all restrooms, lounges, classrooms, and offices directing students and personnel out of the building through the nearest exit door(s). Traffic from the corridors will be directed to the exits and will proceed to the designated area. All faculty should direct the traffic from their classrooms to the corridors and proceed to the designated area. DO NOT light any cigarettes near the building. EVERYONE is to remain in the designated area until given the “All Clear” signal.

Students will be provided with the locations of the emergency exits in the buildings and are provided guidance about the direction they should travel when exiting each facility for a short-term building evacuation (they also are provided this information at orientation). In the case of short-term or long-term evacuations, the Campus Security Authorities or designated faculty or staff on the scene will communicate information to students regarding the developing

situation or any evacuation status changes.

The purpose of evacuation drills is to prepare building occupants for an organized evacuation in case of an emergency. Property management for the location that houses the school conducts routine inspections of the building alarm systems. There are multiple fire extinguishers throughout the school and students, staff, and faculty are made aware of the locations.

“Timely Warnings”

In addition, the Clery Act requires that schools provide timely warnings concerning the occurrence of any Clery Act reportable crime that poses a continuing and ongoing threat to the school community. The determination to issue a timely warning is made by the Campus Security Authorities of each campus or his/her designee, on a case by case basis considering all the available facts, including whether the incident is a serious or continuing threat to the community and whether the warning may compromise law enforcement efforts. A timely warning includes a brief description of the incident and the suspect, if known; the date, time, and location of the incident; and suggested precautions. The purpose of the timely warning is to aid in the prevention of similar occurrences.

The school is small enough that communication from the front of the school to the back of the school can occur rather rapidly via face-to-face or through calling instructors on their cell phones. Notices will also be placed on student information boards, hallway walls, doors, etc. notifying them of potential threats. If the school needs to be closed, we will utilize local news stations via television and radio. Students are also made aware that they can access emergency notices via our Facebook page or the school website. We have a STARS Campus Management Portal database that will allow us to send immediate notifications via text message to students, in the event of an emergency. Staff and faculty will be reached by their respective supervisors. In the evening, the instructors hold the responsibility of making the decision if the Campus Security Authorities are unavailable to make the determination. If there appears to be an immediate threat, the building will be evacuated. If there is a threat as a result of a criminal action that could potentially jeopardize the safety and well-being of the students, faculty, and staff, they are informed of the occurrence through one of the designated Campus Security Authorities.

If you are witness to or become aware of any criminal offenses occurring on campus, please contact a Campus Security Authority immediately. If you are a student and one of these individuals is not available, please alert another instructor or staff member. If you are faculty or staff, and cannot reach one of the Campus Security Authorities or School Administrators and you determine that this is an emergency, the school Police Department should be contacted and a report made to the appropriate authorities. Any suspicious person or activity in or around the campus should be reported immediately to one of the following Campus Security Authorities listed below. If there is an emergency of any sort, 911 should be called immediately. Individuals are encouraged to report all crimes to Campus Security Authorities

and the local school's Police Department in an accurate and timely manner.

***Voluntary Confidential Reporting**

If you are the victim of a crime and do not want to pursue action within the criminal justice system, you may still want to consider making a confidential report. With your permission, a designee of the school can file a report on the details of the incident without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. With such information, the school can keep an accurate record of the number of incidents involving students, faculty, and staff, determine where there is a pattern of crime with regards to a particular location, method, or assailant, and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crimes statistics for the institution.

Security and Access to the Buildings

The school (Cincinnati, Dayton, Columbus & Cleveland) is open for student access during their class times from 8:00 am to 10:30 pm Tuesday through Thursday & from 8:00 am to 5:30 pm on Mondays. The front office is open weekdays from 9:00am to 5:00pm. The buildings are secured immediately following the completion of the last class. Students also have access to the clinic facilities during all times the clinic is in operation. The Dayton School of Medical Massage-Lima is open during the class times of 8:00 am to 5:30 pm (Mondays-Thursdays). The office is open weekdays from 9:00am to 5:00pm.

Students are only granted access to the facilities during times in which instructional or administrative personnel is available and present. No students are permitted possession of any facility keys or other equipment (key codes, key strips, etc.) necessary to obtain access to any of the facilities.

Maintenance crews tend to the facilities in the evenings and on weekends. Times and days vary according to campus. Students are not permitted to be present when maintenance crews are performing their functions unless instructional or administrative personnel are also present. Maintenance personnel have no access to any area in which private student information is contained, such as offices or rooms where files or computer servers are kept.

***There are no campus housing facilities affiliated with the school.**

Campus Law Enforcement

The school has identified Campus Security Authorities, but these individuals are not trained in security and are not able to make arrests. Their role is to identify potential threats to the students, faculty, and staff, and to take the appropriate safety procedures to minimize or eliminate any existing or potential threat. They are the primary point of contact for any individual wanting to report criminal activity on or around the campus. If there is a situation that is determined to warrant law enforcement intervention, the respective Police Department (Middleburg Heights, Kettering, Shawnee Township, Dublin, or Blue Ash Police Department) will be contacted. The Middleburg Heights, Kettering, Shawnee Township, Dublin, and Blue Ash Police Departments patrol the area of the campus on a frequent basis and alert the schools to any suspicious activity.

Counselors on Staff

The school has no counselors on staff. If individuals request services, the Student Services Manager has contact information for community resources that are available. He/She can be contacted through the front office. They are also designated as a member of the Emergency Response Team and a Campus Security Authority.

Security Awareness/Crime Prevention Programs

During orientation new students are provided with information to read this Annual Security

Report for crime awareness and safety tips. Campus security measures are discussed in order to make the students aware of the steps and precautions that need to be taken in order for them to protect themselves. New faculty and staff are provided this same information in their new hire packets. Prevention tips are also provided in this document, Annual Security Report.

We provide a variety of educational strategies and tips on how to protect yourself from sexual assault, theft and other crimes. Any information that is considered to be of importance for students, faculty, and staff to know in regards to potential threats to personal safety is disseminated via hand-outs in classes, in employee/instructor mailboxes, and on flyers posted on the school bulletin boards.

- **It is strongly encouraged that all students and employees take responsibility for paying attention to their surroundings at all times and be cautious in their interactions with others. Individuals should never go to their cars at night alone.**

Criminal Activity Off-Campus

The school does not have any off-campus student organizations. If an individual is a victim of or a witness to a crime off-campus, the proper local law enforcement authorities should be notified.

Controlled Substances Policy/Alcohol and Drug Abuse

The possession, sale, manufacture, or distribution of any controlled substance is illegal under both state and federal laws. Violators are subject to disciplinary action, criminal prosecution, fine, and imprisonment.

All students, faculty, and staff members are informed that the unlawful manufacture, distribution, dispersion, possession, or use of a controlled substance or alcohol within the premises of the school is strictly prohibited. Students, faculty, or staff members known to be using and/or abusing alcohol or drugs are subject to the Conduct Policies contained in the School Catalog, Faculty Manual, and Employee Manual.

All relevant federal, state, and local laws regarding the unauthorized use, possession, distribution, or sale of any alcoholic beverages and controlled substances are in effect on the grounds of the school.

The school is non-residential that mainly serves adult students. We take all precautions, including distributing information regarding our drug free school/workplace policy and relevant federal and state penalties for violations to all students and employees.

Federal, State, & Local Legal Sanctions

The following is a description of the applicable legal sanctions under Local, State, or Federal law for the unlawful possession or distribution of illicit drugs and alcohol.

Federal Law

Controlled Substances

Any person knowingly or intentionally manufacturing, distributing, dispensing, or possessing with an intent to distribute or dispense, a “controlled substance” (as defined in 21 U.S.C. Sections 802,812) is subject to sentencing under Federal law to a term of imprisonment of as much as ten (10) years to life and a fine of four million dollars (\$4,000,000). Although the sentences imposed under Federal law vary according to the specific controlled substance involved, all Federal sentencing requirements are stringent.

Alcohol

The illegal manufacture or sale of alcoholic beverages, without obtaining the necessary and proper permits from Federal alcohol authorities may subject a convicted individual to fines of up to one thousand dollars (\$1,000).

State Law

Criminal sanctions under Ohio law vary significantly depending upon the controlled substance and the act involved. All specific laws and relevant sections are written in the Ohio Revised Code (ORC).

Controlled Substances

ORC 2925.11 Prohibits any person from knowingly obtaining, possessing or using a controlled substance.

Penalty: A maximum of ten (10) years imprisonment and up to a \$20,000.00 fine.

Alcohol

ORC 4301.63 Provides that no person under the age of twenty one (21) shall purchase beer or intoxicating liquor.

Penalty: A fine of not less than \$25.00 nor more than \$100.

ORC 4301.69A Prohibits selling beer or intoxicating liquor to a person under the age of twenty one (21) years, or buying it for or furnishing it to such a person.

Penalty: Misdemeanor of the first degree. Maximum penalty is imprisonment for up to 6 months and a \$1000.00 fine.

ORC 4301.69E Provides that no underage person shall knowingly order, pay for, share the cost of, attempt to purchase, possess, or consume any beer or intoxicating liquor, in any public or private place, unless he is accompanied by a parent, spouse, or legal guardian, who is not an underage person, unless it is for medical

or religious reasons.

Penalty: Maximum penalty is imprisonment for not more than six months and a \$1,000.00 fine.

Local Ordinances

The cities of Middleburg Heights, Kettering, Shawnee Township, Dublin and Blue Ash enforce all the state criminal statutes cited above and all others cited in the ORC.

Health Risks

The following is a description of the health risks associated with the use of illicit drugs and the abuse of alcohol.

The American Medical Association defines drug abuse as the “self-administration of drugs, either for non-medical reasons or in quantities and frequencies beyond those specified for proper medication,” and it points out that millions of people today are abusing a wide variety of drugs, from aspirin to heroin and now to alcohol.

The medical profession and others in scientific fields agree that more research needs to be done on the long-range effects of alcohol and other drugs. However, they warn that there is already considerable evidence that alcohol and drug abuse does have serious deleterious effects, and no one should be deluded into believing that the abuse of marijuana or any other intoxicating or hallucinogenic drug is a safe thing to do. This includes alcohol, which is a drug.

Sexual Assault Policy

Acts of sexual assault are prohibited and are not tolerated by the schools.

All reported instances of sexual assault are investigated. Appropriate disciplinary, criminal, and/or legal action is taken with the consent of the victim(s). The investigation will be fair, impartial, and equitable. There are grievance procedures in the school Catalog. All parties are able to file a grievance. Administration endeavors to assist any student who has been sexually assaulted on campus.

All personnel are directed to immediately notify the School Director of any reported instances of sexual assault, following any necessary and appropriate emergency steps to aid the victim(s), but only upon obtaining consent of the victim(s) (i.e., providing first aid, calling 911, etc.)

Upon receiving the consent of the victim(s), Administration proceeds as follows:

1. Administration makes immediate contact with the person(s) involved.
2. Administration contacts 911 as needed. The victim is advised to seek medical attention in order to be tested and treated for sexually transmitted diseases and pregnancy.
3. If the victim prefers private transportation to the hospital, this is arranged through the student's emergency contact person.
4. Administration completes a Student Incident Report, following outlined procedures for processing the form. The forms can be accessed in the Business Office.
5. The victim(s) are provided information via the Sexual Assault Policy outlining the options of the victim(s) for civil or criminal prosecution or availability of mediation, and the disciplinary process. The School Director or designee makes available to the victim(s) current civil and criminal prosecution information obtained through the local police and district attorney's offices.
6. Administration does not allow other students or unauthorized personnel access to the victim(s), nor will it allow the press to contact the victim(s) without express consent of the victim(s). Administration must contact the spouse(s) or parent(s) of the victim(s) based on consent.
7. The School Director or Administration is available to students to provide assistance in obtaining services off-campus as may be required. Sexual Assault Referral Listings are available through Administration as well as in the annual security report.
8. As investigative or disciplinary proceedings commence, the victim(s) and the accused may have other support persons present. Under all circumstances, however, confidentiality of the incident must be maintained for the victim(s). All involved parties are immediately

notified of the outcome of these proceedings.

9. All parties are notified in writing by the School Director of the disciplinary action taken by the School, if the student was assaulted by another student or employee of the School.

10. A meeting is held to discuss the return of the victim(s) to school and any assistance that may be needed due to academic, working, transportation, and living, difficulties encountered as the result of the victimization.

Important Facts about Sexual Assault

What is Sexual Assault?

- Any sexual act attempted or committed against a person's will
- Manipulation or coercion, as well as physical force, used to cause sexual contact

If someone forces sexual activity on another person against his/her will, it is sexual assault. Acts of sexual assault are punishable by imprisonment. Any person sexually assaulting a person on school premises is subject to any or all of the following:

- Disciplinary Action – Student, Faculty, or Staff
- Civil Lawsuit
- Criminal Charges

If YOU are the victim of Sexual Assault:

1. Go to a safe place.
2. Immediately contact a staff or faculty member. If you are physically unable to do so, have someone else make the contact for you.
3. Seek medical attention immediately.

Getting help from the police does not mean you have to press charges; however, it is important that you get medical attention to be tested and/or treated for sexually transmitted diseases or pregnancy.

Victims of sexual assault have legal rights. You have the right to file a police report and to pursue civil or criminal charges.

The following information is provided to help you avoid sexual assault. The more you know about rape prevention, the better your chances of not becoming a victim. First, know the facts about rape. Become aware of locations and situations where rape might occur, and avoid them.

1. Consider your alternatives if confronted by a rapist. Practice possible responses so that

you can recall them even under the stress of a real encounter.

2. Avoid walking alone on or off campus.
3. Don't give out any information about other classmates or employees to strangers.
4. Report all suspicious activity to a staff/faculty member.
5. Let a friend or family member know when you expect to be home.
6. Be alert and aware of your surroundings.

Sexual Harassment

The school is committed to maintaining a working and learning environment in which students, faculty, and staff can develop intellectually, professionally, personally and socially. Such an environment must be free of intimidation, fear, coercion, and reprisal.

The school prohibits sexual harassment. Sexual harassment may cause others anxiety or injury. Sexual harassment threatens the legitimate expectation of all members of the campus community, that academic or employment progress is determined by the publicly stated requirements of job and classroom performance, and that the School environment will not unreasonably impede work or study.

Sexual harassment by school faculty, staff, and students is prohibited. Sexual harassment may also constitute violations of criminal and civil laws of the state and the United States. For the purpose of this school policy, sexual harassment is defined as: 1) unwelcome sexual advances; or, 2) unwelcome requests for sexual favors; and 3) other behavior of a sexual nature where:

- a. Submission to such conduct is made either explicitly or implicitly as a term or condition of an individual's employment or participation in a School-sponsored educational program or activity; or,
- b. Submission to or rejection of such conduct by an individual is used as the basis for academic or employment decisions affecting that individual; or,
- c. Such conduct has the purpose or effect of unreasonably interfering with an individual's academic or work performance, or of creating an intimidating, hostile, or offensive educational or working environment.

In assessing whether a particular act constitutes sexual harassment forbidden under this policy, the standard shall be the perspective of the School Director or designee. The rules of common sense and reason shall prevail. Allegations of sexual harassment shall be judged with attention to the facts particular to the case and the context in which the alleged incident(s) occurred.

Conduct prohibited under this policy may manifest itself in many different ways. Sexual harassment may, for example, be as undisguised as a direct solicitation of sexual favors, or solicitation accompanied by overt threats. Harassment may also arise from behavior which

has the effect of creating an intimidating, hostile, or offensive educational or working environment. In this regard, the following types of acts, pervasive and continuous, are more likely-than-not to result in allegations of sexual harassment: unwelcome physical contact, sexual remarks about a person's clothing, body, or sexual relations, conversation of a sexual nature or similar jokes and stories, and the display of sexually explicit materials in the workplace or used in the classroom which are without defensible educational purpose.

Sexual harassment may occur within a variety of relationships. It may occur among peers, or it may occur where no relationship exists between the parties other than being co-employees or co-students.

Especially injurious is harassment in relationships characterized by inequality of power, where one party has institutional authority over the other. Inherent in these relationships is the power and fear of reprisal. Sexual harassment may occur between persons of the same or different genders.

Education and awareness are the best tools for the elimination of sexual harassment. The school is committed to taking appropriate action against those who violate the provisions of the policy. The School is also committed to protecting targets of harassment from retaliation.

Individuals who believe themselves subjected to an incident of sexual harassment should contact the School Director or Administration. The School has made prohibition of sexual harassment a priority, but ultimately, no satisfactory investigation or resolution of a complaint can occur without the initiative and continuous cooperation of the person(s) who feel injured. Similarly, allegations of sexual harassment are extremely serious, with potential for great harm to all persons if ill-conceived or without foundation. Procedures which implement campus policy recognize the potential; the School is committed to protecting the rights of the alleged offender as well as the offended.

The School Director responds to and investigates any allegations of sexual harassment, and ensures consideration is given to the situation and wishes of the complainant(s).

The investigation of such a complaint includes discussing the matter with the person accused of sexual harassment. The findings of the investigation are confidentially reported to the School representatives as deemed appropriate by the School Director. Sanctions for sexual harassment may range from reprimand to termination, depending upon the circumstances of the case.

Facts on Acquaintance Rape

The most common type of rape is committed by someone the victim knows, typically a date or acquaintance. To minimize one's risk of being sexually assaulted by an acquaintance, the following points should be kept in mind:

- Alcohol and/or drug use is frequently associated with acquaintance rape, as these increase vulnerability.
- Avoid being in secluded places with someone you do not know well.
- Always trust your instincts! If you feel uneasy or sense something is wrong, get out

- of that situation immediately. Do not worry about being polite!
- Be clear about your own sexual intentions and communicate your limitations clearly. Say, “Yes,” when you mean, “yes”, and, “No,” when you mean, “no”!
- Avoid attending or staying late at parties where men greatly outnumber women.
- Have a safe means of transportation home.

Registered Sex Offenders

The Federal Campus Sex Crimes Prevention Act, (CSCPA), 42 U.S.C. 14071(j), requires institutions of higher education to advise the members of their campus communities of the location of information concerning individuals employed by, enrolled in, and/or serving at the institution who are registered sex offenders. Individuals who are required to register with the appropriate state office as sex offenders must also inform the state office in which they are registered whenever they enroll in, become employed by, or undertake a vocation at an institution of higher education. The CSCPA requires the state Sex Offender Registry offices to notify an institution of higher education whenever a sex offender on its registry provides notice that he or she is enrolled in, employed by, or has undertaken a vocation at that institution and to provide information concerning that individual. The CSCPA does not require institutions of higher education to request information from state sex offender registries.

The following website contains a database for registered sex offenders in the State of Ohio, as well as a federal database that contains information on registered sex offenders in all states.

Dating Violence, Domestic Violence, and Stalking Policies

All reported instances of domestic violence, stalking, dating violence are investigated immediately, to effectively prevent any reoccurrences. Appropriate disciplinary, criminal, and/or legal action is taken with the consent of the victim(s). The investigation will be fair, impartial, and equitable. There are grievance procedures in the school Catalog. All parties are able to file a grievance. Administration endeavors to assist any student who has been victimized on campus.

All personnel are directed to immediately notify the School Director of any reported instances of dating violence, stalking, and domestic violence, following any necessary and appropriate emergency steps to aid the victim(s), but only upon obtaining consent of the victim(s) (i.e., providing first aid, calling 911, etc.)

Upon receiving the consent of the victim(s), Administration proceeds as follows:

1. Administration makes immediate contact with the person(s) involved.
2. Administration contacts 911 as needed. The victim is advised to seek medical attention.
3. If the victim prefers private transportation to the hospital, this is arranged through the student’s emergency contact person.
4. Administration completes a Student Incident Report, following outlined procedures for processing the form. The forms can be accessed in the Business Office.
5. The victim(s) are provided information outlining the options of the victim(s) for civil or criminal prosecution or availability of mediation, and the disciplinary process. The School Director or designee makes available to the victim(s) current civil and criminal prosecution information obtained through the local police and district attorney’s offices.

6. Administration does not allow other students or unauthorized personnel access to the victim(s), nor will it allow the press to contact the victim(s) without express consent of the victim(s). Administration must contact the spouse(s) or parent(s) of the victim(s) based on consent.
7. The School Director or Administration is available to students to provide assistance in obtaining services off-campus as may be required. Referral Listings are available through Administration as well as in the annual security report.
8. As investigative or disciplinary proceedings commence, the victim(s) and the accused may have other support persons present. Under all circumstances, however, confidentiality of the incident must be maintained for the victim(s). All involved parties are immediately notified of the outcome of these proceedings.
9. All parties are notified in writing by the School Director of the disciplinary action taken by the School, if the student was assaulted by another student or employee of the School.
10. A meeting is held to discuss the return of the victim(s) to school and any assistance that may be needed due to academic, working, transportation, and living difficulties encountered as the result of the victimization.

Bystander intervention: Safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is a risk of dating violence, domestic violence, sexual assault or stalking. Bystander intervention includes:

- Recognizing situations of potential harm.
- Understanding institutional structures and cultural conditions that facilitate violence, overcoming barriers to intervene, identifying safe and effective intervention options, and taking actions to intervene. Ongoing prevention and awareness campaigns: Programming, initiatives and strategies that are sustained over time and focus on increasing understanding of topics relevant to and skills for addressing dating violence, domestic violence, sexual assault and stalking, using a range of strategies with audiences throughout the institution.

Primary prevention programs: Programming, initiatives and strategies informed by research or assessed for value, effectiveness or outcome that are intended to stop dating violence, domestic violence, sexual assault and stalking before they occur through the promotion of positive and healthy behaviors that foster healthy, mutually respectful relationships and sexuality, encourage safe bystander intervention, and seek to change behavior and social norms in healthy and safe direction.

Risk reduction: Options designed to decrease perpetration and bystander inaction and to increase empowerment for victims in order to promote safety and to help individuals and communities address conditions that facilitate violence.

Programs to prevent dating violence, domestic violence, sexual assault and stalking include both primary prevention and awareness programs directed at incoming students and new employees and ongoing prevention and awareness campaigns directed at students and employees.

Unfounded Crimes: An institution may withhold, or subsequently remove, a reported crime from its crime statistics in the rare situations where sworn or commissioned law enforcement personnel have fully investigated the reported crime and, based on the results of this full investigation and evidence, have made a formal determination that the crime report is false or baseless and therefore "unfounded." Only sworn or commissioned law enforcement personnel may "unfound" a crime report for purposes of reporting under this section. The recovery of stolen property, the low value of stolen property, the refusal of the victim to cooperate with the prosecution and the failure to make an arrest do not "unfound" a crime report.

Consent: a clear, unambiguous, informed, voluntary and freely given agreement between all participants to knowingly engage in sexual activity. Consent must be mutually understandable by words or actions (i.e., a reasonable person would consider the words or actions to indicate mutual agreement to engage in the sexual activity). Consent is active and cannot be based on the absence of

an affirmative statement or act of denial. Silence or lack of resistance does not constitute consent. Seeking and receiving consent is the responsibility of the person(s) initiating the sexual act or acts regardless of whether the person initiating the act is under the influence of drugs and/or alcohol. Consent to any sexual act or prior consensual sexual activity between or with any party does not in and of itself constitute consent to any other sexual act. Consent to engage in sexual activity with one person does not constitute consent to engage in sexual activity with another. Consent may be initially given but withdrawn at any time. Consent cannot be given when a person is incapacitated (including, but not limited to, a person or someone with a physical or mental disability and/or level of intoxication that causes impairment resulting in incapacitation), asleep or unconscious, or under age. Consent cannot be given when it is the result of coercion, intimidation, force or threat of harm. The university prohibits any sexual activity that does not involve the consent of each individual. Consent must be given to engage in the act of sexual activity, and consent should also be given to any person who records or photographs any aspect of the sexual encounter as well as third parties who wish to view the sexual activity either in person or via any electronic equipment, methods or devices. Any of these acts will be deemed to be sexual exploitation. Sexual exploitation includes, but is not limited to, the following acts:

- Sexual voyeurism or allowing others to witness or observe the sexual or intimate activity of another person without that person's full knowledge and consent.
- Indecent or lewd exposure or inducing another person to expose themselves when consent is not present.
- Recording any person engaged in sexual or intimate activity in a private space without that person's full knowledge and consent, even if the person recording the sexual or intimate activity is also engaged in the consented to sexual activity.
- Distributing sexual or intimate information, images or recordings about another person without that person's full knowledge and consent.
- Recruiting, harboring, transporting, providing or obtaining another person for the purpose of sexual exploitation.
- Inducing incapacitation of another person with the intent to engage in sexual conduct, regardless of whether prohibited sexual conduct actually occurs. The definition of consent does not vary based upon a participant's sex, sexual orientation, gender identity or gender expression.
